

Our 360°-Service to you.

We are available to you at any time as a reliable partner to offer technical support and advice:

- Our products range from chemical resin systems to steel anchors through to plastic plugs.
- Competence and innovation through own research, development and production.
- Global presence and active sales service in over 100 countries.

DUOPOWER

2K TECHNOLOGY

The Duo of power and intelligence.

fischer 
innovative solutions

fischer 
innovative solutions

Simply clever.

- The new DUOPOWER is the first plug that adapts intelligently to the substrate. This is achieved with the perfect combination of hard and soft materials.
- The plug automatically chooses the optimum function (expansion, folding, knotting) for the best loads.

Power:

Sample applications.

*The load values and applications are guide values of DUOPOWER 8x40 are dependent on the building materials and apply in combination with Ø6mm wood screws according to DIN 571

Installation into solid, hollow or board building materials

The combination of soft and hard materials achieves an optimally matched screw-in and tightening torque.

The grey main body made from high quality nylon automatically activates for the optimum product function (expansion, folding, knotting) for the best hold.

Red expansion wings support the safe expansion and offer additional safety for the nylon main body.

Serrated anti-rotation feature prevents rotation within the drill hole, misuse and extra work.

Short plug length allows for quick fixing, shallower drilling and shorter screws.

Features inside the main body ensure a perfect guide for the screw.

The narrow plug rim prevents slipping in the drill hole but also allows pre-positioned and push-through installation.
